Oyo State, Nigeria

SUMMARY

I am an innovative and detail-oriented Web Developer passionate about crafting responsive and visually appealing interfaces. With proficiency in modern frontend technologies, I excel at turning creative concepts into high-quality web experiences and building fast, accessible web applications. I am committed to continuous learning and contributing to impactful projects that enhance user experience

EDUCATION

Bachelor of Medicine, Bachelor of Surgery (MBBS)

LAUTECH

04/2024 - 11/2030 Nigeria

TRAINING / COURSES

Responsive Web Design

KEY ACHIEVEMENTS

- Optimized Application Performance**
Reduced initial load time of the main application dashboard by 40% by implementing code splitting and image lazy loading, improving overall user experience for daily users
- Optimized Page Speed**
Reduced load times by 20% on landing page with optimized assets.
- Improved Code Quality and Stability**
Decreased critical production bugs by 30% over one quarter by introducing automated unit and integration with Jest and Cypress into CI/ID pipeline
- Improved User Retention**
Implemented real-time data features, raising user retention by 40%.
